

Goldegg Overview

no

**customers need strong
architecture**

**business need strong
architecture**

both need healthy stack

architects don't grow on trees

Missing Ingredient

- **Medium-range planning and leadership**
- **E.g. the move to Five**

goldegg
<http://www.goldeggstack.org/>

funding initiative for existing stack

- Funding help to get Zope 3 into CMF and Plone
- Coordinate across stack layers

- **CMF 2.0 and Plone 2.2 (and Five 1.x?)**
- **Big 3**
 - **XML ex/im**
 - **Views**
 - **Events**
- **Also: packaging**

- Is this Plone centric?
- Is Goldegg foisting decisions on communities?
- Is this a rewrite for Zope 3?
- How does this relate to Z3 ECM?

- **Framework team**
- **CMF 2.0 roadmap**
- **2 sprints**

- **Process, not product**
- **Less PtF**
- **x-stack leadership**

yes
